The Technical data may differ according to the level of equipment.

The specified fuel consumption and emission values are the official figures obtained from tests under standardised EU test conditions in accordance with the Worldwide Harmonized Light Vehicles Test Procedure (WLTP), a more realistic test method for measuring fuel consumption (l/100km) and CO_2 emissions. WLTP replaces the previous NEDC test method. The above values reflect the standard vehicle excluding additional equipment such as optional extras and accessories which may have an effect on the fuel consumption (l/100km) and CO_2 emissions produced.
