Electric range WLTP (km)	-	-	-	123 - 113	121 – 112
Maximum AC Charging power	-	-	-	11kW	11kW
Maximum DC Charging power	-	-	-	50kW	50kW

The Technical data may differ according to the level of equipment.

The specified fuel consumption and emission values are the official figures obtained from tests under standardised EU test conditions in accordance with the Worldwide Harmonized Light Vehicles Test Procedure (WLTP), a more realistic test method for measuring fuel consumption (I/100km) and CO_2 emissions. WLTP replaces the previous NEDC test method. The above values reflect the standard vehicle excluding additional equipment such as optional extras and accessories which may have an effect on the fuel consumption (I/100km) and CO_2 emissions produced. Data are subject to change without any notice
