The Technical data may differ according to the level of equipment.

The specified power consumption and range values are the official figures obtained from tests under standardised EU test conditions in accordance with the Worldwide Harmonized Light Vehicles Test Procedure (WLTP), a more realistic test method for measuring power consumption (kW/100km) and range (km). The above values reflect the standard vehicle excluding additional equipment such as optional extras and accessories which may have an effect on the power consumption (kW/100km) and range (km). Data are subject to change without any notice
